

COMBIBOARD

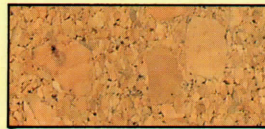

The idea is as surprising as it is simple : a white board and a display board combined in one Combiboard. The Combiboard gives you more of everything. More convenience, more variety and more scope for use in the context of one frame. A handy solution in numerous situations; for a small discussion area, for incidental situations or in the work place, either yours or your secretary's. And because the board can be placed the other way around, you can decide what is handiest; notices on the left and writing on the right, or the reverse. *Whitemark* is just as flexible as the Combiboard itself.

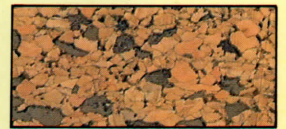

Whitemark Display Boards available in various colours

Whitemark Cork Boards are available in two different texture

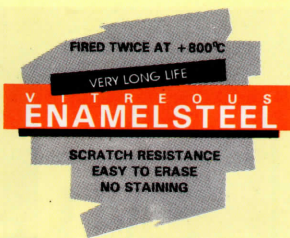

CODE WIC305

CODE WIC303

All boards are supplied with the necessary mounting materials. They are finished with the same profiles as used in all other *Whitemark* boards and are therefore suitable to be used as standalone or in combination with other boards. Please refer price list for various sizes available.

Ideal for presentations
in your own Style !

To communicate clearly in an attractive, stylish manner that reflects the surrounding interior. The *Whitemark* range has been compiled with precisely this aim in mind. Because each interior, and yours too, has its own ambiance, this range offers a varied selection of colours and material sorts. The display boards in maroon, grey, green or blue are strikingly expressive and have a contemporary and streamlined look. The cork boards made from compressed natural cork are natural in appearance. In short, the *Whitemark* range of display boards is bound to offer you the ideal solution for your style of presentation.
